

# Confectionery Catalogue

A factory producing small happinesses was a dream of Firuz Kanatlı and drawn by himself in 1961. Eti's journey of taste began with the sense of courage, devotion and innovativeness of a handful of people working with ambition. Eti grew, developed with quality and effort and has become the first brand coming to mind in Turkey 'when it comes to happiness.

## Adventure

Since the beginning of production in 1996 TOYBOX GIDA A.Ş has maintained its leadership position in the domestic market continuously. Initially the company has concentrated on the production of Surprises and Chewing Gums with Magic Toy for children, however in recent years it has increased its product portfolio and started to reach young and adult consumers as well. We have an annual production capacity of 15.000 tons in our main production lines of Jelly, Licorice, Marshmallow, Meter Gum with Toy, Lollipop, Real Chocolate Products, Hard and Soft Filled Candy and Toy Chocolate Egg.

Our company, which has conquered the hearts of all consumers by producing healthy, safe, high quality natural products with national and international food safety certificates for years, continues to bring our products to its customers in the shortest time and safely by closely following the latest international technological developments. In domestic market, our products reach to approximately 70 thousand points of sale in 81 provinces of Turkey through our distributors with 450 vehicle fleet and are carefully offered to our customers in all national and local market channels. Our export marathon, which we started about 3 years ago, has made great progress in this short time. Currently, we continue our pleasant and fruitful commercial partnership with 55 business partners from all over the world with a rising trend. We will be very happy to see you among us in our happy and big family.

Alasia fully comprehends and meets the needs of both beekeepers and Honey lovers. Our honey products are of high quality and 'hygienic'. Alasia has emerged as the industry's top and most dependable manufacturer because of cutting-edge technology, advanced processing facilities, and innovative procedures.

From our hives to your hands, we treat our honey with the care it deserves. That means no pasteurization, no overheating, and no artificial ingredients. Alasia honey is traceable to its source, free of GMOs and GE, and contains no added sugar or water - and, most importantly, no pesticides. That way, you can be sure it's completely natural, just like nature intended.
